Digging Deeper: Group Questions & Personal Reflection

1. Share with your group the worst memory you have of missing margin in your finances. What did that feel like? How are you currently in this area?
2. The world will tell you that a better standard of living will give you a higher quality of life. Do you agree? Discuss? How have you believed and acted on this in the past or present?
3. 'If I had a little bit more, I'd be fine.' Do you agree with this statement? What is the hidden fault in this kind of thinking? How does this mentality impact our walk with Christ?
4. Can you recall the 5 point plan of action for making margin in your finances from the message Sunday? As a group, see if you can jot them down on paper and talk about what steps could help each of you. You can find the message at mpcc.org if you need to review.
5. Lift each other in prayer, especially if there are self-imposed financial habits that are preventing us from following the Lord as He would call us to.

As we continue our three Sunday gatherings,
please pray for the church, for all those who are serving,
and that God would bless this family of God.
