Digging Deeper: Group Questions & Personal Reflection

1. What is your favorite way to spend your time? If you have a free moment, how do you typically spend it?
2. In a similar way that you can create a financial budget, discuss in your group about the different ways you budget your 24-hour days. Include things like work, family, housekeeping, and even sleeping.
3. For the next week, chart how you spend each day; the how, who, where and why. Establish percentages for each item on your list.
4. Where are you spending most of your time? How does the time you spend in each category reflect what you value or treasure most?
5. How are you doing in time spent focused on God? For example, time in prayer, worshiping, listening, and serving. How can you encourage each other to grow in this area?
6. Make a realistic plan to budget your time leaving margin for the unknown agenda items in God's plan. Share these among your group members.

As we continue our three Sunday gatherings,
please pray for the church, for all those who are serving,
and that God would bless this family of God.
