### **Digging Deeper: Group Questions & Personal Reflection**

1. Discuss how you feel about the statement that the church is not about 'me'. Some would argue otherwise. Have you ever made the church about you, your needs, your preferences or have you ever seen that happen before?
2. "The church is the only cooperative organization in the world that exists for the benefit of its non members." William Temple. Discuss.
3. Would you share the number you assigned yourself on the consumer/contributor scale. What do you need to do to move in the right direction?
4. Share the gifts that God has given you and how you might use them in the church or as the church.
